

Terraform Certified Engineer

Terraform State Concepts

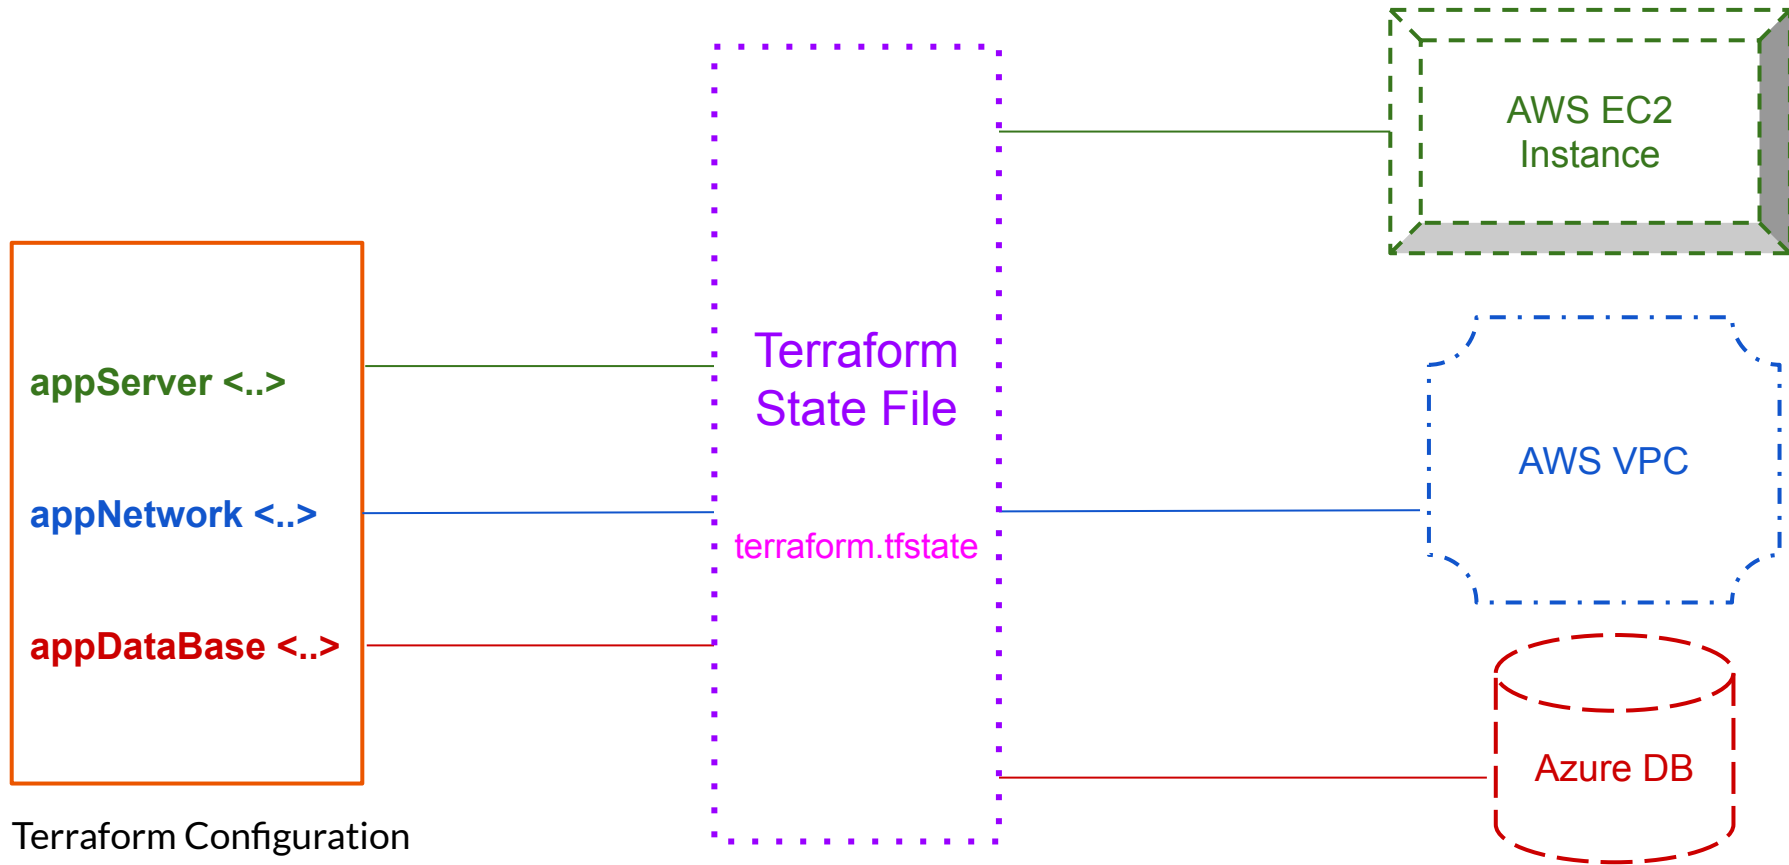

Terraform State

- Terraform State file are important for **Resource Tracking**.
- Terraform State a way, that terraform read to identify what has been deployed.
- Very Critical to Terraform Functionality.

Terraform State File

Managed Infrastructure

Terraform State

- Stored in Flat File. By Default named “**terraform.tfstate**”.
- Stored in same Working Directory. But Can be Stored Remotely.
- Helps Terraform calculate Deployment Deltas. Terraform Plan can be used to create the New Deployment Plan.
- **Never lose your Terraform State File.**

Hands On Demonstration

Thank You...

Don't be the Same! Be Better!!!
