# Red Hat Ansible : The Next Level

Configure Ansible

# Ansible Automation

➢ While Install Ansible using virtual env, default ansible config path is None.

➢ This Path is required to Ansible for Configuration and Inventory.

➢ Path Preferences
  ○ ANSIBLE_CONFIG
    ■ Env Variable
  ○ ./ansible.cfg
    ■ Current Dir
  ○ ~/.ansible.cfg
    ■ Hidden file in Home Dir
  ○ /etc/ansible/ansible.cfg
    ■ Ansible config at etc

# Ansible Automation

➢ Create hosts and ansible config at virtual env location.

➢ Create hosts
   ○ [all]

➢ Create ansible config file
   ○ [defaults]
      Inventory = hosts

# Thank You...

Don't be the Same! Be Better!!!
